

DRAFT LIST

MICRO-FOREST SPECIES LIST - DOWNER - TOTAL PLANTS - 1500			
TREE SPECIES ADAPTED TO HOTTER & DRIER CLIMATES THAN CANBERRA (list based on research by ANU prepared for ACT Environment & Planning Directorate)			
Native Tree Lists			
Best practice - max 5% one species, max 20% one genus, max 30% one family			
<i>Highlighted plants are smaller in size and more suitable for large gardens/properties</i>			
Species Name	Common Name	FAMILY	THEME
Brachyciton populneus	Kurrajong	MALVACEAE	Bush Food/Fibre/Bees
Casuarina glauca	Swamp She-oak	CASUARINACEAE	Habitat
Callitris endlicheri	Black Cypress Pine	CUPRESSACEAE	Habitat
Eucalyptus rossii	Scribbly gum	MYRTACEAE	Habitat
Eucalyptus pauciflora	Snow gum	MYRTACEAE	Habitat
Eucalyptus populnea		MYRTACEAE	Habitat
Melia azederach 'Elite' <i>DECIDUOUS</i>	White Cedar	MELIACEAE	
Grevillea robusta	Silky Oak	PROTEAEAE	Habitat
Cupaniopsis anacardioides	Tuckeroo	SAPINDACEAE	Birds/Butterflies
Other trees			
Acacia melanoxylon		FABACEAE	Birds/Butterflies/Bush Food
Allocasuarina verticillata		CASUARINACEAE	Birds
Allocasuarina littoralis		CASUARINACEAE	Birds
Melaleuca linariifolia	Paperbark	MYRTACEAE	Pollinator (native bees)
SHRUBS - Larger shrubs like Acacia are the nurse plants for less hardy plants			
Acacia mearnsii	Black wattle	FABACEAE	Nurse plant
Acacia dealbata	Silver wattle	FABACEAE	Nurse plant
Callistemon viminalis 'Captain Cook'	Bottlebrush	MYRTACEAE	Pollinator (native bees)
Callistemon sieberi	River bottlebrush	MYRTACEAE	Pollinator (native bees)
Cassinia longifolia	Long Leaved Cassinia	Asteraceae	Nurse plant/pollinator (native bees)
Correa alba	Correa	RUTACEAE	Pollinator & bird attracting
Daviesia mimosoides	Narrow leaf bitter pea	FABACEAE	
Dodonea viscosa	Hop bush	Sapindaceae	
Eremophila maculata/glauca	Emu bush	Scrophulariaceae	Bird attracting
Leptospermum	Tea tree	MYRTACEAE	Pollinator (native bees)

Rhagodia spinescens	Salt bush	Amaranthaceae	Bush Food
Westringia 'Wynyabbie Gem'	Native Rosemary	LAMIACEAE	Pollinator (native bees)
STRAPPY			
Dianella tasmanica		Asphodelaceae	Basket Weaving/ Pollinator
Lomandra longifolia		Xanthorrhoeaceae	Basket Weaving
Xerochrysum viscosum		Asteraceae	Pollinator (native bees)
GROUNDCOVERS (TO 50CM FROM NATURE STRIP GUIDELINES) Deliberately chosen plants that can grow in Bush Fire prone areas - guidelines advise to avoid tussock grasses and choose plants with low oil content & fleshy leaves			
Grevillea lanigera 'Kangarutha form'		PROTEACEAE	
Hardbenbergia violaceae	False Sarsparilla	FABACEAE	
Hibbertia procumbens	Spreading Guinea flower	Dilleniaceae	
Myoporum parvifolium	Creeping Boobialla	Myoporaceae	Pollinator
<i>The Climate Factory also recommends</i>			
Dichondra repens	Kidney Weed	Convolvulaceae	
Carpobrotus glaucescens	Pig Face	Aizoaceae	Bush Food/ Habitat
Kennedia prostrata	Running Postman	FABACEAE	Butterflies/Habitat
Scaevola?		Goodenaceae	
Grevillea 'Pink Lady'			
Allocasuarina nana			
Tetragonia tetragonoides	Warrigal greens	Aiozaceae	Bush Food

Draft List produced by The Climate Factory in consultation with Chris Golding, The Tree Man. November 2109.
